

Sven the Cactus presents...

Word Adventures

The word of the week is:

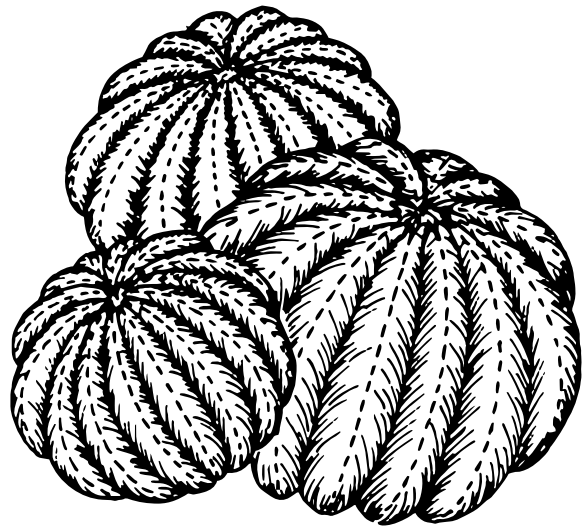

are desert plants, and they grow in dry places where other plants have trouble living in.

Cacti (cactus) have the ability to store water in order to survive in extremely dry places. They can live over a year without rain..

They have sharp needles to protect them from animals that would want to eat them.

Cacti can be found in all different shapes and sizes, and they can also have different colours as well!

Word Adventures: Cactus

Activity of the week: Drawing

Draw a cactus you wish existed. Be creative!

A large, empty rectangular box with a thin black border, intended for a drawing of a cactus.
